

THE TEAM AND TOOLKIT

FOR THE SUCCESSFUL DELIVERY OF AN INTERIM PROJECT

LLDC has a unique opportunity to deliver and support a wide range of interim uses within the Queen Elizabeth Olympic Park and surrounding areas.

In order to make the most of this opportunity, one of the most important outputs from this research is to create a supportive, skilled and energetic team behind their interim use planning, development, delivery and legacy.

We have compiled a list of the key roles and tools involved in these processes, devised from the experiences of other interim use projects. We hope this will be used to create a dynamic team that can engage with a varied programme of uses and people to make many interim uses happen.
